Profile

Dedicated **Fullstack Web Application Develope**r from Nepal with expertise in front-end and back-end technologies. Actively seeking a position in **Software Engineering** to apply technical skills and make meaningful contributions. Proficient in **HTML5, CSS3**, and **JavaScript** frameworks such as **React.js** and **Next.js**. Skilled in backend technologies including **Go (Golang), Gin Gonic, Django**, and **Python**. Experienced in collaborative work within Agile environments.

Professional Experience

2020/11 – present
Kathmandu, Nepal

Software Engineer
Readytowork-corp ⧉
Professional Summary:
- Proficient Next.js developer with a strong foundation in React fundamentals.
- Skilled in managing component lifecycles and implementing best practices.
- Expertise in JavaScript, DOM, CSS, HTML, and other front-end languages.
- Specializes in creating responsive and visually appealing web applications.

Technical Skills:
- React: Proficient in leveraging React and its ecosystem.
- Next.js: Expertise in utilizing Next.js and hooks to enhance performance and development efficiency.
- Collaboration: Effective communication with cross-functional teams and senior management.
- Isomorphic React: Advocated for the adoption of Next.js for improved server-side and client-side rendering.
- Continuous Learning: Committed to staying updated with the latest industry developments and new release versions.

User Interface Design:
- Utilized Ant Design (Antd) to create intuitive and visually appealing user interfaces, improving user satisfaction scores by 20%.
- Demonstrated the ability to balance aesthetics with functionality for a better user experience, leading to a 15% increase in user engagement.

Debugging and Performance Testing:
- Proficient in browser-based debugging and performance testing tools, reducing average page load time by 30%.
- Capable of identifying and resolving issues to ensure seamless user experiences for web applications, decreasing user-reported bugs by 25%.

2019/11 – 2020/04
Lalitpur, Nepal

Python/Django Developer(Intern)
Mpercept Technology ⧉
- Acquired a strong grasp of **RESTful APIs**, demonstrating proficiency in designing, implementing, and consuming web services following REST principles.
- Gained fundamental knowledge of **Git version control**, enabling effective collaboration and code management within development teams.
- Sharpened written and verbal **communication abilities** through continuous practice, fostering clear and effective interaction in both technical and non-technical contexts.

- Successfully designed and implemented multiple CRUD RESTful APIs using the **Django Rest Framework**, showcasing the ability to create robust and scalable web applications.

Projects

Sales-agent ⧉
A recruitment platform specializing in sales recruitment.
The **Sales Agent project** is an HR-agency and company collaboration designed to streamline job search activities through three portals: the Admin Portal, managed by the sales-agent company with comprehensive dashboard control; the Agent Portal, enabling HR companies to manage job placements for candidates; and the Consumer Portal, allowing job seekers to select HR agencies for their desired jobs. This system aims to provide a seamless and efficient job search experience by automating and managing related sales activities.

Kaki-Oki ⧉
An innovative End-of-life platform.
The **Kaki-Oki** is an innovative End-of-life platform designed to offer a meaningful way for individuals facing mortality to express their final thoughts. This system allows users to document personal information, wills, and messages, ensuring that in the event of their passing, their family members or friends can access these heartfelt messages, memories, and important information.

Kowapets ⧉
System for a pet sales company
The **Kowapet** project is a system for a pet sales company, including a renewed homepage and a dashboard for content management. It consists of two main sites: one for customers considering pet purchases and another for site administrators to manage content and other administrative tasks.
